PROFESSIONAL SUMMARY

Data Scientist and AI Engineer with expertise in **Machine Learning, Deep Learning, NLP, and Generative AI**. Experienced in developing AI-powered applications and leading teams to deliver innovative solutions. Led the development of **JobMate AI**, an intelligent career assistance platform featuring resume building, interview preparation, and AI-driven career guidance. Strong problem-solving, leadership, and communication skills with a passion for transforming ideas into impactful AI solutions.

EXPERIENCE

Data Scientist & AI Engineer

2022 – Present

Upwork

Remote

- Worked as a Freelance Data Scientist and AI Engineer on Upwork, delivering AI-driven solutions and maintaining a 5-star client satisfaction rating.
- Developed end-to-end Machine Learning, Deep Learning, NLP, and Generative AI applications.
- Built Retrieval-Augmented Generation (RAG) pipelines, AI chatbots, and intelligent automation systems.
- Gained hands-on experience in Multi-Agent AI systems and Internet of Agents architectures.
- Built scalable solutions integrating LLMs, semantic search, vector databases, and document processing workflows.
- Collaborated with clients to understand business requirements and transform complex data into actionable insights.
- Delivered high-quality AI solutions focused on measurable business impact.

SKILLS

- Advanced Python programming for Data Science, Machine Learning, and Deep Learning applications.
- Experience in Generative AI, LLMs, RAG pipelines, and Multi-Agent AI systems.
- Strong knowledge of data analytics, statistical modeling, and feature engineering.
- Skilled in building AI-powered web applications and intelligent automation systems.
- Proficient in SQL, data preprocessing, and handling large-scale datasets.
- Excellent problem-solving, analytical thinking, and research abilities.
- Strong communication, teamwork, and client collaboration skills.
- Effective time management and ability to deliver projects under deadlines.

TECHNICAL SKILLS

Programming: Python, SQL

Machine Learning: Data Analytics, Statistical Modeling, Feature Engineering, Data Preprocessing

Deep Learning & NLP: Deep Learning, Natural Language Processing, Large Language Models

Generative AI: RAG Pipelines, AI Chatbots, Multi-Agent AI Systems, Internet of Agents

Databases & Search: Vector Databases, Semantic Search, Large-Scale Dataset Handling

Professional Skills: Problem Solving, Leadership, Communication, Teamwork, Client Collaboration, Research

EDUCATION

University of Engineering and Technology

Lahore, Pakistan

Bachelor in Computer Science

May 2026

- CGPA: 2.93

PROJECTS

JobMate AI | *AI Career Assistance Platform*

- Led the development of an intelligent career assistance platform featuring resume building, interview preparation, and AI-driven career guidance.
- Applied AI and Generative AI concepts to build user-focused career support features.
- Worked on transforming the project idea into an impactful AI-powered application.

ACTIVITIES

- Literature, Art, Environmental Conservation, Yoga, Skiing, Travel, and exploring e-commerce platforms.
